DETAILED ACTION

- This action is responsive to the following communication: Notice of Appeal and Pre-Appeal Request Conference filed on 2/28/06.

Response to Arguments

- Applicant's arguments, see pages 2-3, filed 2/28/06, with respect to claims 1 & 14 have been fully considered and are persuasive. The prior art rejection under 35 U.S.C §102(e) of claims 1 & 14 has been withdrawn.

Allowable Subject Matter

Claims 1-6, 9-11, 13-20, 23-25 are allowed; renumbered as claims 1-20.

The following is an examiner's statement of reasons for allowance: The cited prior art (US 20030140315 to Blumberg et al) of record teaches a method and a printing system including an user interface that enables a user to select finishing options (i.e. print attributes/parameters for print order such as business cards, poster, and etc) and interactively displays a proof (i.e. document preview) of how the finished document will look when the user's selected finishing options are applied, but the cited prior art of record fails to teach and/or suggest a method and/or a printing system for comparing the image characteristics (i.e. image resolution, size) and one of the specified application and specified printing options to determine the appropriate application for the image ***and in combinations of other features*** as cited in independent claims 1 & 14 (renumbered as 1 & 11 respectively). The examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of prior arts that teaches the above limitations and in combinations of other features cited in claims 1 & 14 (renumbered as 1 & 11 respectively).
